DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3, 5-14, 32-34 and 36-48 are rejected under 35 U.S.C. 102(b) as being anticipated by WO 94/04313.

WO 94/04313 teaches an apparatus as claimed. The apparatus comprises a cleaning medium as claimed and devices as claimed. The apparatus is fully capable to perform all functions recited by the claims. See entire document, especially Figures 1, 3, 5 and description of cleaning mediums at pages 10-14.

The limitation of elastic covering film is disclosed at least at page 13, lines 24-32, page 14, line 19 – page 15.

3. Claims 1-3, 5-14, 32-34 and 36-48 are rejected under 35 U.S.C. 102(b) as being anticipated by WO 82/0101844.

WO 82/0101844 teaches an apparatus as claimed. The apparatus comprises a cleaning medium as claimed and devices as claimed. See entire document, especially page 3, line 12 – page 8, line 13, page 9, line 12 – page 19 – line 6.

The limitation of elastic covering film is disclosed at least at page 13, lines 14-20.

Response to Arguments

4. Applicant's arguments filed 12/26/07 have been fully considered but they are not persuasive.

The applicants allege that the applied documents do not teach elastic covering material.

This is not persuasive because in contrast to the applicants' statements the elastic fluid of WO 94/04313 and the plastic material of WO 82/0101844 are readable on the claimed elastic covering film. The claims are not limited to the embodiment presented on Fig. 5 and the related description. The claims neither specify the specifics of the film, nor require the structure of the film as presented on Figure 5. Thereby, the plastic covering of WO 82/0101844 and the elastic fluid of WO 94/04313 are readable on the claimed film. Thereby, the structures of the apparatuses disclosed by WO 94/04313 and WO 82/0101844 are the same as claimed.

The examiner would like to note that what is presented on Figure 5 of the instant application is different from the disclosure of the applied art, but the claims are not limited to what is presented on the referenced Figure.

If the applicants would like to discuss the case with the examiner, the request for the interview would be granted.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
